

To provide a community service and improve the appearance of our treasured landscape, Sheriff Charlie Ray Fox, Jr., has authorized the use of low-risk inmates to pick up litter on our county roads. This program will be supervised by School Resource Officers, who are temporarily reassigned during the summer months. The Virginia Department of Transportation is partnering

with the Sheriff's Office by providing signs, trash bags and safety vests. While we clean up the environment and improve our country roads, we ask that you join us by driving carefully and not littering!
